2021

SASB Index for Informa PLC

For the year ending 31 December 2021

Introduction

Becoming an ever more sustainable, positive impact business is an important part of Informa's business strategy, and over the last five years, we have been progressively building capability and expertise around ESG and sustainability.

In 2020, we launched FasterForward, a structured programme to accelerate the pace and scope of our activities over the next five years, including a series of commitments and targets. Under this programme, we are reporting our activity and sharing information under the Sustainability Accounting Standards Board standards (SASB), to better assist investors and other stakeholders understand our work and performance.

Following SASB's guidance on relevant sectors and metrics, we have reported Informa's activity under the Media & Entertainment sector and used the categories that match what we believe is most material for our business today, signposting to where further information can be found. These metrics will be kept under review and may be expanded or adapted as is relevant to how our business and our FasterForward programme progresses.
